SERVICES

1. ICT CONSULTING & CUSTOM SOFTWARE DEVELOPMENT:

We deliver cutting-edge solutions to meet your IT needs—including technology, strategy, and roadmap development. Whether you need advisory services from our IT Management consultants or fully outsourced managed IT Services - think of us as your technology partner. We leverage years of experience with experts in the industry. We will deploy best practices, technology, and processes that align with the unique challenges of your industry. We ensure your data is secure, your networks are running, and you are protected 24/7.

Our Focus Areas in ICT:

AI & Automation Services- At Techsphere, we harness the power of Artificial Intelligence to build smart, automated systems that revolutionize how Kenyan businesses operate. From reducing costs to improving efficiency, our custom AI solutions are designed to give you a competitive edge in today's digital economy.W

Website design & development - Sleek, mobile responsive websites that will convert potential customers into buying customers.

Custom software development - We develop smart web-based applications according to your requirements and specifications. Our software is built with security in mind. We create software for all industries including Health, Education, Real Estate among others.

Cloud Storage - We offer reliable, scalable and cost-effective cloud computing services for your business. Our cloud storage services will work for you, grow and scale with your business needs.

Web Hosting - We provide affordable, highly secure and reliable hosting plans for any business. We also provide Domain name registration services, 24/7 customer support, custom business emails & Secure Socket Layer(SSL).

Graphic Design - We create and develop various design types such as Computer-

Aided Design, Corporate Identity Design, Product Packaging, Drawing, Publication, and logo design.

Bulk SMS - Get your messages to the public instantly. You can easily send one-time passcodes, SMS alerts, and promotional messages from any system. Manage your SMS communications from your computer using our desktop application.

Cybersecurity - Techsphere utilizes proactive strategies to identify and neutralize potential threats, ensuring the confidentiality, integrity, and availability of sensitive information. Beyond the technical solutions, we offer other cybersecurity services including user education and awareness programs to empower individuals with the knowledge to recognize and mitigate potential risks. As cyber threats continue to evolve, cybersecurity services remain indispensable in preserving the integrity and security of our increasingly interconnected digital world.

OTHER SERVICES

- **MONITORING & EVALUATION**
- **TRAINING: DATA SKILLS IMPARTING**
